Jesse –

In late 2019, early 2020, you gathered some data on shootings for me, that I used as part of the LPR proposal. Lorie is going to put together some graphs comparing our 2019, 2020, and 2021 shootings. To do it accurately, we need to know in what month each of our shootings occurred. In 2019, you reported we had 24 shootings. Do you happen to have a spread sheet, or your notes, so Lorie can enter the dates on a graph?

Thank you,

Dan
